Experience

Freelance in graphic design, drawing and programming

Since 1997 to present (mostly B2B, many thousands projects)

Photo Editor, printer, scanner - Pedromyndir (Kodak Express)

1993 - 1997

Bartender, waiter - Sjallinn

1990 - 1993

Various summer jobs while in college

Before 1990 (shipyard, fish processing, baker, warehouse assistant, etc.)

Education / Skills

Premed in business and economics - VMA

1989 - 1993

Private pilot - Flugskóli Akureyrar

1997-1998 (I have not maintained the training ...yet!)

Skills

I have always been drawing since I was a child. Around 10 years old I started programming too. After that, I have constantly been learning in those both fields and I'm still learning each day.

I'm advanced in programs like Photoshop, Illustrator, 3D Studio Max, Flash, Painter, CorelDraw, Freehand, InDesign, AfterEffects and others alike. I know Windows and DOS systems like my palm. I can easily work on Mac and Linux. I always assemble my own desktop computers. I have good experience in common programs like Word, Excel, etc.

HTML, CSS, Javascript/jQuery, PHP, MySQL are like part of my soul. I'm experienced in designing databases, web pages and programs (I created my own CMS, named SMALI, and various programs for companies).

My driver license is B, C 74, BE and CE 76 (since 1990).

Languages

I speak, read and write **English** and **Icelandic** well.

*I love comics, design,
art, architecture, animation,
3D, movies and reading.
I enjoy tech stuff like
advanced machinery, robots,
space and new inventions.*

*To relax I walk, jog
and cycle.
I like traveling,
especially to
foreign countries.*
